Passcode: BMC2

POC: Thomas.Wallace@gtri.gatech.edu

OBJECTIVES:

Baseline a common understanding on MDC2 ECCT-derived BMC2 concepts for the future fight.

Address the impact of automation/AI, denied/degraded communications, and spectrum control on the future of BMC2.

Understand transition from current C2 environment to future BMC2 structure and requirements.

Obtain academic, industry, and government perspective on short-term (0-3 years), mid-term (3-6 years), and long-term (6-9 years) BMC2 strategy and goals.
